

Why should you protect your child with the Polish National Alliance?

1. Future Insurability

Buying permanent life insurance for your child ensures the availability of coverage later in life. You don't know if your child will develop a disability or chronic illness later in life, making it hard, if not impossible, to get life insurance.

2. Affordability

The premium cost will be much lower for a child compared to similar insurance purchased later in life. A permanent form of life insurance can lock in a low premium that's guaranteed never to increase over your child's lifetime.

3. Cash Value

Permanent life insurance builds cash value. It can be used for your child in the future for such things as college tuition or certificate loan.

4. PNA Membership

Participate in the PNA Scholarship Award Program, the fraternal benefit that separates us from a commercial life insurance company. Sign-up for the Sage College Tuition Reward Program, to help with the cost of a private college education. The PNA subsidizes Polish Language Schools throughout the country. Those are just a few fraternal benefits the PNA has to offer.
